Please bookmark this link and use it for all resident seminar evaluations. Also, please complete the evaluation as soon as possible after the program.

**Target Audience:** Pharmacists

**Learning Objectives:**

At the completion of this activity, the participant will be able to:

- Describe the mechanism of action of mRNA vaccine platforms and how it differs from viral vector vaccine platforms.
- Explain what is currently known about the efficacy of COVID-19 vaccines and where gaps in available data exist.
- List common and serious adverse effects and monitoring parameters associated with the COVID-19 vaccines.

**Fees:** **There is no charge for attending this activity.**

**Disclosure:** Dr. Drwiega is a clinical trial investigator with Moderna. Dr. Sarah Michienzi, the mentor reviewer, receives grant/research support from Merck. The planning committee members and the other reviewers who contributed to this activity have no relevant financial conflicts of interest to disclose.

**Statement of Continuing Pharmacy Education Credit:**

The University of Illinois at Chicago College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education. This activity has been assigned ACPE Universal Activity Number **0016-0000-21-017-L06-P**, for 1.0 contact hours (0.1 CEUs). Attendance at the entire knowledge-based activity, completion of the evaluation, and submission of NABP eProfile ID and MMDD are prerequisites for receiving continuing pharmacy education credit(s). All ACPE credit awarded to participants must be uploaded to CPE Monitor™ within 30 days of the activity date, so pharmacists are required to provide their e-Profile ID and date of birth (MMDD) at the time of the activity. Please contact [aquar2@uic.edu](mailto:aquar2@uic.edu) if you do not see activity information listed within 30 days. For more information and to set up your e-Profile visit: [www.MyCPEmonitor.net](http://www.MyCPEmonitor.net).
